## Green Report

This environmental recycling activity report reflects

Service Period : **Year 2012**

Summary specific to **123 Company**

September 2012

123 Company

1111

westmont, IL 60606

Attn: Client Name

Dear Client:

“Team Citadel” thanks you for your environmentally conscious commitment.

**Global Fact:** manufacturing and using products made from **recycled paper** has a sustainability impact on natural resource consumption and replenishment.

100% of your shredded documents are recycled. The below dollar calculations represents your contribution to the natural resources saved and the cost avoidance achieved, through the production of paper products utilizing recycled paper as opposed to cutting down new trees. Estimated figures are derived from official U.S. Environmental Protection Agency ( EPA ) calculations and actual prices are from wholesale suppliers of paper, electric, water, and landfill.

Material Processed			
<b>17,501</b>	Pounds Collected is equal to:		<b>8.75</b> Tons Processed
Which Translates Into			Financial Value
149	Trees Saved		\$37,250.00
61,250	Gallons of Water Saved		\$275.63
35,875	Kw of Energy Saved		\$2,870.00
525	Pounds of Pollutants Kept from Atmosphere		\$2,625.00
44	Cubic Yards of Landfill Saved		\$2,200.00
			<b>\$45,220.63</b>

*Go Green! Take great pride in knowing your environmental efforts are leading the way and setting a great example for others.*

**Best Regards, "TEAM CITADEL"**
